31st Annual
Cardiologists Conference
June 17-19, 2019 | Rome, Italy
**Opening Ceremony**

---

**KEYNOTE FORUM**

**Introduction**

**Title:** The potential role of a unique, simple, quick, accurate, inexpensive, routine evaluation of Autonomic Nervous System (ANS) Sympathetic (S) and Parasympathetic (P) activity in Cardiovascular Diseases (CVD)

Gary L Murray, Heart and Vascular Institute, Germantown & International College of Angiology, USA

**Title:** Is Ranolazine the best pharmacologic oral therapy for congestive heart therapy to date?

Gary L Murray, Heart and Vascular Institute, Germantown & International College of Angiology, USA

---

**GROUP PHOTO**

**Title:** The pharmacogenomics of essential hypertension: Role of G protein-coupled receptor kinase 4

Pedro A. Jose, The George Washington University School of Medicine & Health Sciences, USA

**Title:** First time IVUS used to detect lesion in tortuous, overlapping and trifurcation of at distal left main vessel

AM Thirugnanam, Ipocard Cardiac Care Center, India

---

**Sessions:** Clinical Cardiology | Heart Diseases | Electrocardiography | Nuclear Cardiology | Diabetes & Heart | Women & Heart Disease

**Chair:** Gary L Murray, Heart and Vascular Institute, Germantown & International College of Angiology, USA

---

**INTRODUCTION**

**Title:** Title to be submitted

Giuspepe Berton, Conegliano General Hospital, Italy

**Title:** Complementary supportive therapy for symptomatic patients with a left ventricular dilatation and reduced ejection fraction

Mila Jakovljevic, Polyclinic for Cardiovascular Diseases and Prevention, Croatia

**Title:** Is the blood pressure control necessary before surgery?

Višnja Nesek Adam, Clinical Hospital Sveti Duh & JJ Strossmayer University of Osijek, Croatia
**SYMPOSIUM**

**Title:** Anthracycline-induced cardiomyopathy: Translational perspectives in cardio-oncology  
Antonella De Angelis, University of Campania Luigi Vanvitelli, Italy

**Title:** Basic science and unresolved clinical problems: SGLT2 inhibitors and heart failure with preserved ejection fraction  
Konrad Urbanek, University of Campania Luigi Vanvitelli, Italy

**SPEAKER FORUM**

**Title:** Lung ultrasound for interstitial syndrome development monitoring in cardiac and non-cardiac patients who underwent non-cardiac surgical procedures  
Maja Karaman Ilić, Clinical Hospital Sveti Duh & JJ Strossmayer University of Osijek, Croatia

**Title:** Ventricular interdependence in pulmonary hypertension  
Camelia Nicolae, Carol Davila University of Medicine and Pharmacy, Romania

**Title:** Prostaglandin E2 promotes vascular remodeling of the ductus arteriosus  
Susumu Minamisawa, The Jikei University, Japan

**Networking & Refreshments**

**Title:** Cardiac Amyloidosis: How to Diagnose it in the Echo Lab?  
Fabiola b sozzi, University Hospital Policlinico of Milan, Italy

Under Reviewing process to be updated soon

Panel Discussion

**DAY-2**

**June 18, 2019**

**Meeting Hall:** Olimpica 2

**KEYNOTE FORUM**

**Title:** Chemotherapy-induced cardiotoxicity  
Eugenio Greco, Fellow of ESC, Italy

**Title:** Using smart ECG t-shirt with AI based arrhythmia detection  
Oleksii Vynogradov, Heartin Inc, USA
Title: 10 years experience of autologous bone marrow derived stem cells delivery in wide spectrum of pathologies (potential role of sympathetic nervous system)
Aris Lacis, University Children Hospital, Latvia

Title: Current methods to palliate refractory angina and research on the development of collaterals from occluded or tunnellized internal mammary arteries: The point in 2019
Marco Picichè, San Bortolo Hospital, Italy

Networking & Refreshments

Sessions: Cardiac Surgery | Cardiac Nursing | Cardio-Oncology | Pediatric & Geriatric Cardiology | Interventional Cardiology | Hypertension

Chair: Eugenio Greco, Fellow of ESC, Italy

INTRODUCTION

Title: Role of smooth muscle cell-specific calcium-independent phospholipase A2β in arterial restenosis in mice
Zhenheng Guo, University of Kentucky, USA

Title: Surgery for infective endocarditis
Nicholas Kang, Green Lane Cardiothoracic Surgical Unit, New Zealand

Title: Combined transcarotid transcatheter aortic valve implantation and end arterectomy of the ipsilateral internal carotid artery
Mahmoud Fouda, Asklepios Hospital Harburg, Germany

Title: Intracellular development of resident cardiac stem cells provides myocardium with transitory amplifying cells which are capable to form new cardiomyocytes
Galina B. Belostotskaya, Almazov National Medical Research Centre, Russia

Title: Title to be submitted
Giuspepe Berton, Conegliano General Hospital, Italy

Title: Acute Chest Pain in young women
Fabiola b sozzi, University Hospital Policlinico of Milan, Italy

GROUP PHOTO

Title: Age and prosthesis-patient mismatch after aortic valve replacement: impact on long-term survival
Alexander Manché, Mater Dei Hospital, Malta.

Title: Title to be submitted
Roque A Cordoba, Argentina
Title: Title to be submitted
Ali A.A Al Bshabshe, King Khalid University, Saudi Arabia

Under Reviewing process to be updated soon
